

# The Learning Center Believes:

- All children can learn
- Children with learning differences can succeed
- Learning gaps can be closed
- Parents of children with learning differences need support
- Children win when schools, parents, and community organizations create strong partnerships

The Learning Center of Southwest Iowa

1715 West Prairie Street, Suite A  
Creston, Iowa 50801

## Curriculum

[www.tlciowa.com](http://www.tlciowa.com)

Our vision is for children, their families and the schools that educate them will have access to the researched-based services, training, and support needed to reach their potential in becoming successful life-long learners.

## Interesting Insights

The Purpose of TLC is to provide students who learn differently with the supplemental, research-based intervention, and support needed to achieve academic success.

### According to Research

The time, intensity and duration of intervention needs to be based on each child's unique needs, this typically cannot be done in a traditional school day.

- Older struggling readers (past 3rd grade) with significant reading deficiencies may require up to 2 or more hours of intense systematic intervention per day, 5 days a week for 2 years.
- 1 in 6 children has a Learning Difference.
- 1 in 10 children have ADHD.
- 1 in 58 has an Autism Spectrum Disorder.
- Up to 1 in 5 students in classrooms today have a form of Dyslexia.

Learning gaps can be closed with proper intervention and supplemental learning techniques.

## TLC Teaching Services

- \* Screening Services for Math & Reading
- \* Assessments for Math and Reading
- \* Teaching in Math and Reading
- \* Intervention Services (researched-based, multi-sensory & systematic)
- \* Parent Education & Support
- \* Raise Awareness of Learning Differences

### Math Curriculum

Woodin Math is our based curriculum math program. The program provides students a way to store, access, and express numbers through multimodal activities.

### Reading Curriculum

Susan Barton Reading is our base reading program. It is a multi-sensory program employing reading, writing, oral, visual, and tactile exercises.

These materials are highly multi-sensory and research based, making learning achievable for students with various learning differences.

*"My child was having difficulty keeping up with her classwork, she was frustrated and exhausted from not getting the concepts. We enrolled in TLC and she is making headway in her learning."*

## Why We Teach

The Learning Center of Southwest Iowa is a 501(c)3 non-profit. Our #1 goal for students receiving services at TLC is to bridge the gap and perform at grade level in reading and math.

### What Success Leads To

- \* Improves attendance & interaction at school
- \* Improves self-confidence
- \* Provides the ability to pursue higher education
- \* Educated employees for local companies to hire
